

MOURI TECH®

Accelerating Siemens Teamcenter Transformation with **AI-Powered Engineering Services**

As products become increasingly complex, OEMs and Tier-1 suppliers are relying on modern Product Lifecycle Management (PLM) platforms to accelerate innovation, improve collaboration, and establish a connected Digital Thread. However, legacy PLM environments, fragmented product data, and disconnected Engineering processes often limit agility and operational efficiency. This use case demonstrates how MOURI Tech helps organizations modernize their Siemens Teamcenter landscape through implementation, upgrades, integration, data migration, AI-driven automation, and application management services to deliver a scalable, future-ready PLM ecosystem.
