

MOURI TECH®

Comprehensive Engineering & Digital Services Enabling Intelligent Product Innovation

Our Engineering Services Offerings

Product Lifecycle Management (PLM)

- PLM Consulting and Strategy
- Implementation & Customization
- Migration & Upgrades
- Infrastructure Setup & Support
- Integration with CAD, ERP, & MES Systems

Product Design

- Product Design and Development
- Research and Development Services
- New Product Development (NPD)
- Manufacturing Engineering Support
- Engineering Change Management

Manufacturing Execution Systems (MES)

- MES Strategy and Roadmap
- Product Evaluation and Fitment
- Implementation and Integration
- Shop Floor Digitalization
- Real-Time Production Monitoring

Transformational Services

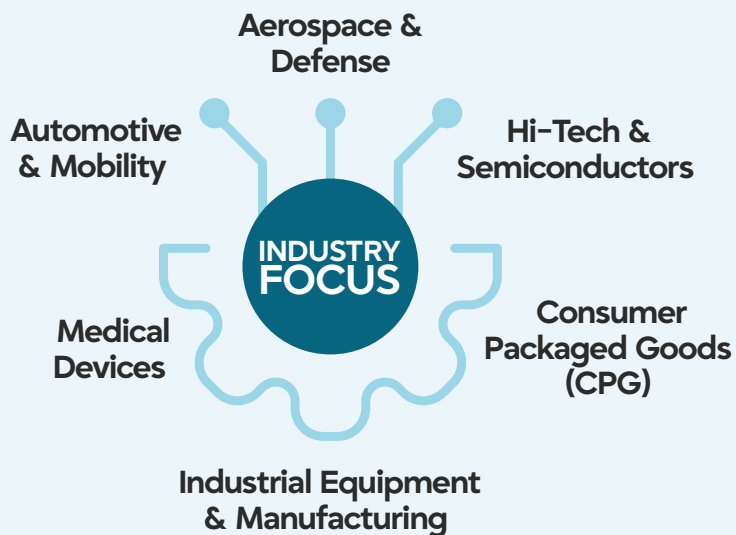

- AI/ML for Engineering
- Knowledge Based Engineering
- Digital Engineering Accelerators
- Data Ingestion and Analytics
- Intelligent Automation for Engineering Processes

Modern product companies must innovate faster while navigating rising product complexity, regulatory demands, and connected manufacturing. Yet, fragmented systems, legacy lifecycle processes, and limited end-to-end visibility continue to slow innovation.

Combining MOURI Tech's deep domain expertise, advanced digital and AI capabilities, and a strong engineering partner ecosystem, we enable product companies to achieve faster, more precise innovation—driving transformation across product design, R&D, advanced PLM, and smart manufacturing.

Our Partner Ecosystem

Business Benefits

- Accelerate Innovation and speed time to market.
- Achieve First-Time-Right Engineering and lower costs.
- Establish a Seamless Digital Thread Across Product Lifecycle.
- Achieve real-time visibility and control to drive faster, smarter decisions.
- Unlock AI-Driven Engineering Intelligence.
- Build a Scalable Digital & Smart Manufacturing Foundation.

Why MOURI Tech?

We combine deep engineering expertise with AI-enabled solutions, automation, proven frameworks, and scalable delivery models to help organizations modernize their engineering ecosystems. Our structured approach seamlessly connects product development, R&D, PLM, and manufacturing, creating a unified digital thread across the product lifecycle.

Leveraging reusable accelerators, digital engineering platforms, and intelligent automation, we streamline operations, enhance collaboration across global teams, and deliver measurable improvements in productivity, quality, and time-to-market.

End-to-End Digital Engineering Across Leading Product Ecosystems

Accelerate Your Engineering Transformation!

Partner with MOURI Tech to modernize your engineering ecosystem and build the next generation of intelligent products.

MOURI TECH®
